Teacher Talk

The following topics will help you continue to create a supportive healthy team culture. They will encourage and equip your staff in being more effective in communicating and understanding the next generation.

- + Work / Life balance
- + The power of a Teacher
- + Healthy conflict
- + Understanding the “Generations”
- + Making sense of technology
- + Time management “Getting things done”

Parenting Today Talk

Children face enormous pressures and must make critical choices in their life. Research shows that parents that are well informed and involved with their children are more likely to give kids a better chance to a healthier life.

Topics include:

- + Growing wise, resilient and successful kids
- + Dealing with alcohol, drugs and sexuality
- + Conflict resolution
- + Discipline and boundaries
- + Opportunity for Q & A

Thank you so much for your contribution to building up and encouraging our school community. We really appreciate your involvement.

-Chaplain

I really like it how he wasn't just standing there and making it awkward. Very engaging (always kept us listening, thinking and engaged.) I liked the openness in which he shared. It's helping me work through some struggles (some from past, some current).

- Year 9 Students

Thank you for what you and your organisation are doing to spread Jesus's love to all those in need. Thank you for your enthusiasm and passion for telling the world about what our saviour has done for them. Thank you for your organisation just being available to meet the needs of a hurting world.

- William (Parent)
